REASONS FOR ALLOWANCE

1. This Office Action is responsive to the Amendment filed on 3/7/05.
2. Claims 1 and 4-9 are allowed.
3. The following is an examiner's statement of reasons for allowance:

References 6714263, 5933770, 6680977, 6057876, 5038404 and 5390346 are additionally cited because they are pertinent to the claimed invention.

-Regarding to independent claim 1, none of prior art of record teaches or suggests the system as claimed. Limberg in view of Weight (prior art of record) fails to teach the limitation "said upconverter is a substantially fixed upconverter and said downconverter is a variable down converter for selecting a desired channel", wherein as remarked on page 4, in REMARKS/ARGUMENTS of the Amendment filed on 3/7/05, the "variable down converter" is variable for selecting a desired channel. It would not have been obvious for one skilled in the art to implement either or combination of Limberg and Weight in view of other prior art of record in order to lead such an implementation to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
